The Strike News at New York City, Lafayette and Elsewhere To-day.

PUBLIC PRINTER.

Thomas F. Benedict, of New York, Receives the Appointment.

NEW YORK, Aug 27.—A Middletown, N. Y., special says: "The Ellenville *Press* announces that its former editor, Deputy State Comptroller Thomas F. Benedict, has been tendered by President Cleveland and accepted the position of public printer at Washington, and will assume the duties of the office at once. The present proprietor of the *Press*, Gilbert H. Benedict, will officiate as chief clerk under his brother.

STRIKE NEWS.

How the Labor Revolts Stand To-day.

PITTSBURG, Aug. 27.—Shoenberger's nail works, which has been closed for several weeks, will resume work on Monday, the employes having decided to follow the example of the Wheeling and Mingo men, and go to work at the seven cent scale. It is quite probable that other Pittsburg factories will follow suit.

There are no prospects of a resumption of work in the window glass factories of the west before October, and perhaps not then. The workmen insist upon the 8 per cent. advance in wages demanded for the gatherers and the manufacturers positively assert they will not concede the increase.

NEW YORK, Aug. 57.—The street railway troubles are not yet settled by any means, as the situation at the Belt line depot on Tenth avenue and Fifty third street shows. Crowds of angry men line Tenth avenue for three or four blocks.

LAFAYETTE, Ind., Aug. 27.—Yesterday John F. McHugh, attorney for the striking carpenters at the car works, demanded from the company the full amount of wages due the men. It has been the custom of the company to withhold two weeks' pay from the men in their employ. The company at first refused to comply, but finally, to escape lawsuits, agreed, and the men marched to the works in a body and were paid off. This afternoon the men removed all their tools from the shops. One man returned to work to-day, but the others are firm in their demand for $11.50 per car.

Business Failures.

NEW YORK, Aug. 27.—The business failures for the past seven days in the United States are 171, and in Canada 30.

BOSTON, Mass., Aug. 27.—T. F. Brown & Co., furniture manufacturers, have gone into insolvency. Liabilities $75,000; assets about $60,000.

BUFFALO, N. Y., Aug. 27.—The general assignment of Mortimer M. Mabie boot and shoe dealer, was filed to-day. Preferences aggregate $23,000.

Senator Evarts Better.

WINDSOR, Vt., Aug 27.—The condition of Senator Evarts is improving. He rested well the greater part of the night and is able to take light food. He thinks a few days rest will entirely restore him to health. Miss Matthews is gaining and her bruises are less painful.

Gay's Shortage $11,337.

PITTSBURG, Pa., Aug. 27.—An investigation of ex-Chief Pension Clerk Gay's accounts shows a shortage amounting to finally $11,337. The examiners found that his peculations began five years ago. At first Gay took small sums, ranging from $20 a day and upwards. Last year the embezzlements amounted to as much as $700 a day. There will be five or six charges of forgery brought against Gay.

A Bishop Elected.

SALISBURY, Md., Aug. 27.—Rev. Alexander Dreissen, of New Orleans, was yesterday elected bishop of the episcopal diocese of Easton. This makes the fourth election, some heretofore having declined.

THE MATTOON LOTTERY.

Grand Chief Arthur Explains the Relations of the Brotherhood to the Scheme.

PERU, Ind., Aug. 27.—P. M. Arthur, chief of the Brotherhood of Locomotive Engineers, was in the city to-day, to adjust, if possible, the differences between the Indianapolis, Peru and Chicago engineers and the company.

Until he was told by your correspondent, Mr. Artuur had not heard of the arrest of M. C. Nixon and Wilber Mitten for violation of the law in the Brotherhood of Locomotive Engineers' lottery enterprise. Concerning that enterprise he said:

"I was invited to Mattoon, Ill., last winter by division 37.—I heard about this lottery then for the first time, at a dinner party given me. I was driven out to the farm offered as one of the prizes, by Mr. Nixon. I was shown the indorsements of prominent business men and bankers of Mattoon. If there was anything in it contrary to law, I did not then and do not now understand why it should be indorsed by them. Churches and business men have these gift concerts, and the money of this one was to go to the orphans and widows of the engineers. I saw nothing wrong in it. I think the brotherhood were to have 20 per cent of the proceeds. After the sale of the tickets were made there were a number of tickets left, and the managers proposed to give them to the grand officers. I told them we would have nothing to do with them. After the drawing was made I was notified at Cleveland, to send some one to Indianapolis to receive the deed on the farm that was drawn by one of the tickets held for the benefit of the grand officers. I wrote them that we would have nothing to do with it, and that they might make a report of the thing to the convention, and the convention might do as it pleased. As far as the grand officers are concerned, that is how the matter rests. We value our good name, and if there has been anything wrong in the conduct of this affair I do not know it, and the responsibility rests with the Mattoon division, and not with the grand officers or the brotherhood at large. I propose that this whole business shall be full explained to the public—how the drawing was made and who got the prizes. We don't lack for money, and we would rather that the entire sum be given some charitable institution in Mattoon, or distributed to the discontented, than take it with a particle of wrong in it."

LOCAL LINES.

The Salvation army has leased the Academy of Music for a year and will conduct their meetings there.

Mrs. A. Mergentheim and son Martty left last night for a two weeks visit with relatives at Chicago and St. Louis.

Prof. John Mayle has resigned from the head of St. Mary's parochial school and will engage in the manufacture of steam engines and threshers at Laporte. He will be succeeded by a young man from Evansville.

John E. Erwin sues Anna Wageman and John McMahon, for injunction and $20 damages. Judge O'Rourke will issue a restraining order enjoining the defendants from removing "real estate with teams and wagons," until a former judgment is satisfied.

Adams Express company to-day handled a valuable consignment of pictures for Cincinnati. The collection was from Rt. Rev. Bishop Dwenger's studio and included his famous Titian painting. The works of art are to be exhibited at the Cincinnati exposition and E. L. Mahner came here especially to secure them.

Nicholas Morris, who assaulted Chas. Stoppenhagen, was fined $5 and costs by the mayor this morning. His bill was $22.55, and he gave bond for its payment. Morris filed an affidavit against Stoppenhagen for trespass in breaking in his door. This case will come up next Monday. Stoppenhagen says he will sue Morris for damages. It is a badly mixed up muss. Mr. Clary Edsall was counsel for Morris and get him off lightly.

The Number of Jews.

According to the last Israelitish Annual, the number of Jews in the world at present is but 9,300,000, of whom 5,400,000 are in Europe. There are 230,000 Jews in the United States, 2,452,000 in Russia, 1,644,000 in Austrian Hungary, 668,000 in Gallicia, 638,000 in Hungary, 562,000 in Germany, and in France, notwithstanding all the fuss that M. Drumont makes about them in his "Jew France," only 63,000.

CONVERSATION AT THE SEASIDE.

Some of the Subjects Discussed on a Hotel Veranda.

[Special Correspondence.]

ASBURY PARK, Aug. 23.—Conversation at a seaside hotel is never either stimulating or beneficial. Early evening is the hour when there is a freer commingling of the different elements of society. The veranda is the theatre of this form of sociability. Twilight gives an excuse for informal exchange. The highly exclusive and densely stupid dowager then permits herself to say "yes," "no," "indeed," "I am surprised," and other equally brilliant remarks to the tedious old man who talks about himself all the time. She has had a good deal of her own society through the day, and is somewhat tired of it, to tell the truth. Anything is a relief—even such nothings as the vacant-headed old man utters.

A woman with two pretty daughters talks mostly about "keeping the house lively." She watches hungrily for new guests, and secretly hopes that every fresh arrival will prove to be somebody of consequence. She has an eye to making acquaintances of distinction.

The bullet headed man treats us to long and graphic yarns about fish. He has fished everywhere, if he is to be believed, from Behring's strait to the southern seas, and always with the most astonishing success. The wrigglings of his victims are described over and over again, evening after evening, until we would all fain cry in our best stage tones: "No more! no more! Spare me, good sir, this doleful iteration."

The bald headed man with speculative instincts thinks speculation, but doesn't talk it. No, he talks on conventional subjects. "Who is the greatest preacher in New York?" and "which is the most popular church?" are his standard themes. He quotes bits of the sermons of his favorite preachers, and rather wants to have it understood that he knows the correct thing in theology.

The woman from Boston talks mind cure, which is all Sanscrit to most of her hearers. I heard her this morning try to put an inkling of her theories into a mind that had never heard of any of them, nor, indeed, of much else beyond being quite prim, proper, prunes and prisms-like. It was breaking rough ground surely.

The missionary soon saw that it was a hopeless case, but she persevered. She gave some good, wholesome rules for diet and then touched a little on metaphysics. The other woman looked at her with glassy eyes, as ignorant of what she was talking about as a cricket. Then there occurred to me a puzzle for the phrenopaths to solve. How can one go to work to cure the ills of a person without a mind?

The pretty little woman, who has two small children, regales all who will listen to her with stories of the brilliancy of these nurselings. This brings out no end of newspaper anecdotes about clever babies, their wise and witty sayings, and their remarkable performances.

The wife of the bagman always talks about the stage. She is looking forward to the matinee performances of the coming winter with great delight. She boards when in New York, and is troubled about how to put in her time till the theatrical season opens.

The very elderly lady in silks and laces, queerly enough, talks more gossip than anybody. She dosen't limit herself to purely innocent gossip, either. And when it comes to criticism she knows how to lay it on then—three-ply and particularly highly polished. Seeing and hearing her I am led to reflect that a carping, critical mind in a body near the grave is a very disagreeable spectacle.

One very old man talks horse all the time, which is a great improvement on the unflattering personalities indulged in by the very old lady.

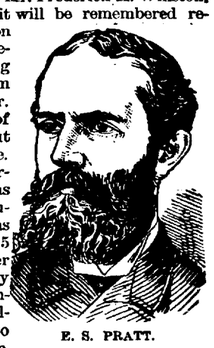
The stage struck girl talks always about the heroes and heroines of the stage.

The fair one, who paints plaques and other horrors, talks about "subjects." She spends some time in hunting for "subjects" on this sparsely covered bit of earth. She takes to flowers instead of mortals, as subjects, which is doubtless well for the mortals.

The woman who talks about her relations is here, of course. She never tells a story without fastening it on an aunt or cousin, or some of her kin dead or alive. She has never been told that stories about relations are great bores. Probably nobody will ever have the courage to tell her. MAX ELTON.

The New Minister to Persia.

Dr. Edwin Spencer Pratt was recently appointed to succeed Mr. Frederick H. Winston, of Chicago, who it will be remembered resigned the post soon after reaching Teheran and making the grand salaam to the shah. Dr. Pratt is a native of Alabama and but 35 years of age. The greatest portion of his life has been spent in Europe, where he was taken when but 5 years of old. After receiving a literary and scientific training in French colleges he returned to the United States in 1874 and studied medicine in New York city. He continued his studies in the Charity hospital, New Orleans, and in English hospitals. After two years more of scientific study in Paris he returned to this country in 1880 and engaged with his father in commercial pursuits until the death of the latter through a railroad accident on a railroad of which he was vice-president.



E. S. PRATT.

MISS DOLORES LLEONARTI CASSANOVAS has just received the degree of M. D., at Barcelona. She began, says the *Pall Mall Gazette*, her university studies at the age of 8, when at 13, she became a B. A., and now, at the ripe age 19, after coming out first in all her examinations, and taking numerous prizes, she is a fully qualified physician and surgeon. Fancy a female B. A. of 13 discoursing on hideous diseases with six-syllabled names, and correctly diagnosing and prescribing for her brothers and sisters! But it is what we have got to expect, and the fair Spaniard is to be congratulated on being the first of her sex to show what can be done in the way of rapid development. Miss Dolores, etc., may be fairly addressed, like her namesake sung of by Swinburne, as 'wise among women and wisest, our Lady of Pain.'

A Michigan Man Murders His Wife and Leaves Her Body in the Yard.

SHOCKING ACCIDENT.

Lady Superioress Eulalie Burns to Death in Her Bed.

CINCINNATI, Aug. 27.—Sister Eulalie, the superioress of Immaculate academy, Newport, Ky., met with a shocking death this morning. She was nearly convalescent from an attack of typhoid fever and about four o'clock, while trying to take some medicine, a mosquito-bar caught fire and in a moment the bed was a mass of flames. Sister Eulalie sprang out and tried to get into the hall, but found the door locked and in her fright, could not find the key. The occupants of the house came to her assistance, but had to break down the door to reach her. When the fire was extinguished the unfortunate woman was so badly burned that she died in a few hours. The deceased was forty years of age. She had spent considerable time in Louisville. Her parents, named Graynor, now live in New York City. She is widely known in the Catholic church.

A HUMAN FIEND.

He Murders His Wife in a Quarrel.

YPSALANTI, Mich., Aug, 27.—A murder was committed at Mettles Station, about seven miles south of this city, yesterday. A farmer named Wells, cut his wife's throat during a quarrel about property. When their two little children returned from school they found the dead body of their mother in the yard. They alarmed the neigborhood and a scarch was made for the murderer. He was found in a corn crib and gave himself up without resistance. He pretended insanity.

California Republicans.

LOS ANGELOS, Cal., Aug. 27.—In the republican state couvention this morning, John F. Swift was nominated for governor on the eighth ballot. Swift was one of three special envoys sent to China to negotiate an amended treaty between the United States and China, and is one of the best newspaper writers on the Pacific coast.

SPRINGFIELD, Ill., Aug. 27.—The democratic state convention of Illinois consumed but six minutes yesterday in nominating H. F. J. Ricker for state treasurer and Professor F. D. Oldt for superintendent of public instruction. Propositions to place F. H. Winston and J. E. Van Pelt on the state central committee was voted down. When the name of President Cleveland was mentioned there was a tumult of applause. The platform favors the reduction of the tariff to a revenue basis, approves of the forfeiture of railroad land grants; declares against convict labor, the holding of real estate by aliens, and the attempt to prohibit the manufacture or sale of liquors.

The prohibitionists of Pennsylvania nominated Charles F. Wolfe for governor, and A. A. Barker for lieutenant-governor. The sum of $7,000 was contributed for campaign purposes, and $200 flung into the hat for the widow of Rev. Mr. Haddock, of Iowa, supposed to have been murdered for his labors in the cause of temperance.

John Roach Dying.

NEW YORK, Aug. 27.—John Roach, the ship-builder, is lying dangerously ill at the Hotel Balmoral, Mt. McGregor. He has been confined to his bed for the past four or five days.

MT. MCGREGOR, Aug. 27.—The statement made by the New York morning papers that John Roach is seriously ill here, is emphatically denied by Mr. Roach.

The Detroit Pitcher Fined.

DETROIT, Aug. 27.—Pitcher Getzien, of the Detroit base ball club, has been fined $50 for insolence and profanity addressed to Capt. Hanlon, who had censured him for listless playing.

SHEPHERD AGAIN.

His Work at Fort Wayne is Criticised.

The Indianapolis *Journal* says: "From what Shepherd has said to me," another military man replied, to the question of the reporter, "I do not believe that Gov. Gray was conversant with the quartermaster-general's charge of twenty-five cents for cleaning each gun. I see the governor says that he had no knowledge of it, but Shepherd thinks otherwise. About lending guns to unorganized and independent companies, I believe there is a United States statute, requiring the guns furnished a state by the national government to be used only by the regular militia. Shepherd, I know, has sent letters broadcast throughout the state informing persons interested that he will furnish guns for soldiers' reunions and sham battles at twenty cents each in addition to freightage and cartage. He has complained about Adjutant-General Koontz organizing so many companies. He claimed that he could not get enough guns to arm them. Referring to ammunition at the recent reunion at Fort Wayne, there were among the troops twelve companies of regular Indiana militia. The committee up there bought all the cartridges used. Not a round was supplied by the state. Shepherd's price, $18 per thousand, may be reasonable, but his cartridges are of medium quality. You can get the best at $21 per thousand. The prices vary according to the kind of powder used."

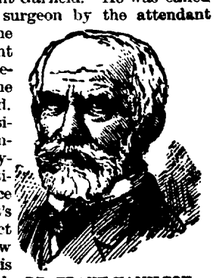
A GAY ONE.

A Wabash Conductor Runs Away With a Married Woman.

Mrs. George A. Wise, of Peru, took advantage of her husband's absence in Kansas and eloped with a Wabash freight conductor, named Stephen Maxey. Mr. Wise on his return followed the couple to Indianapolis and had the unfaithful woman arrested. She was sentenced to the work house for thirty days and her child was delivered to her husband. Her paramour was on the road and escaped capture Conductor Maxey is quite well known here and was regarded as a favorite in "society." Mrs. Wise is of bad stock.

Dr. Frank H. Hamilton.

Among distinguished men recently passed away is Dr. Frank Hastings Hamilton, of New York city. He was born in Vermont in 1813. For more than a quarter of a century he has been one of the best known of American surgeons. To the country at large he became known during the long and trying sufferings of President Garfield. He was called in as consulting surgeon by the attendant physicians at the time the president was shot, and remained all the months till the end. Garfield's physicians did not impress their countrymen with their intimate acquaintance with their patient's case, but that fact only goes to show how little really is known by the medical profession after all, even the best of them.



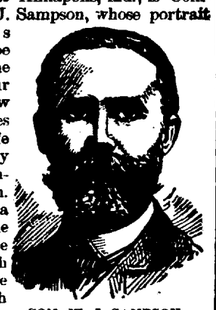
DR. FRANK HAMILTON.

Dr. Hamilton was a graduate of the University of Pennsylvania. He was professor of surgery in various schools throughout New York state up to 1861. Then he and others founded the medical college of Bellevue hospital, New York city, and Dr. Hamilton was its first professor of surgery.

He was the inventor of many valuable surgical instruments, and a brilliant and able lecturer, teacher and writer. His most important book was a "Treatise on Fracture and Dislocations." It ran through seven editions and has been translated into French and German. It is the recognized authority on the subject of which it treats. Dr. Hamilton was in failing health for three years.

Commander William J. Sampson.

The new superintendent of the United States naval academy at Annapolis, Md., is Commander William J. Sampson, whose portrait accompanies this article. It will be a satisfaction to the mothers of our country to know that their son's lives are likely to be safe while the academy is in charge of Commander Sampson. It will require a Samson to crush the disgraceful practice of "hazing," which has prevailed there for years and which has resulted in the maiming of many boys for life.



COM. W. J. SAMPSON.

The new superintendent is a strict disciplinarian. He was a New York boy and is now 46 years old. He entered the Naval academy in 1857 and graduated at the head of his class in 1861. He served during the war in the Potomac flotilla, the gulf squadron and in the monitor fleet at Charleston, S. C., being one of the few on board the monitor Patapsco who escaped when it was destroyed by a Confederate torpedo.

THE fish story has got into the advertising columns. A New York paper contains an advertisement of a St. Lawrence Hotel, the advertisement consists of pictures of seven fish, the smallest four pounds and the largest five and a quarter pounds, all caught in one afternoon by a guest at the hotel.

LONDON, Aug. 27.—The Bulgarians are practically unanimous in their demand for Prince Alexander's return to Rustchuk. As a result of the understanding reached by the adherents to Prince Alexander at Sofia and Tunovia, a council of regency has been formed, and Elmont Komroff has been appointed commander-in-chief as long as a state of siege lasts.

BERLIN, Aug. 27.—M. DeGiers, Russian minister of foreign affairs, yesterday issued a circular from Franzensbad, Bohemia, where he is staying, explaining Russia's connection with the Bulgarian coup d'etat. M. De Giers declares that Russia can never approve of the circumstances attending Prince Alexander's abdication. "The Bulgarians who favored the deposition of Prince Alexander," DeGiers continues, "undoubtedly followed their natural feelings thereby removing obstructions which disturbed the close union of Bulgarians and their kindred, the Russian people."

LONDON, Aug. 27.—The British house of commons, by a vote of 241 to 146 rejected a motion by Edward C. Russell to adjourn the house. All the Gladstonean and Parnellite members arose in support of the motion.

A QUESTION ABOUT *Brown's Iron Bitters* ANSWERED.

The question has probably been asked thousands of times, "How can Brown's Iron Bitters cure so many things?" Well, it doesn't. But it does cure any disease for which a reputable physician would prescribe IRON. Physicians recognize Iron as the best restorative agent known to the profession, and inquiry of any leading chemical firm will substantiate the assertion that there are more preparations of iron than of any other substance used in medicine. This shows conclusively that iron is acknowledged to be the most important factor in successful medical practice. It is, however, a remarkable fact that prior to the discovery of BROWN'S IRON BITTERS no perfectly satisfactory iron combination had ever been found. BROWN'S IRON BITTERS does not injure the teeth, cause headache, or produce constipation—all other iron medicines do. BROWN'S IRON BITTERS cures Indigestion, Biliousness, Weakness, Dyspepsia, Malaria, Chills and Fevers, Tired Feeling, General Debility, Pain in the Side, Back or Limbs, Headache and Neuralgia—for all these ailments Iron is prescribed daily. BROWN'S IRON BITTERS, however, does not cure in a minute. Like all other thorough medicines, it acts slowly. When taken by *men* the first symptom of benefit is renewed energy. The muscles then become firmer, the digestion improves, the bowels are active. In *women* the effect is usually more rapid and marked. The eyes begin at once to brighten; the skin clears up; healthy color comes to the cheeks; nervousness disappears; functional derangements become regular, and if a nursing mother, abundant sustenance is supplied for the child. Remember Brown's Iron Bitters is the ONLY iron medicine that is not injurious. *Physicians and Druggists recommend it.*

REPORT OF THE CITY CIVIL ENGINEER.

In the matter of the petition of Mrs. Francis Steinecker to have the sidewalk raised on Locust street along her property, on the southwest corner of Locust street and Fairfield avenue, referred to me, will report that I have exrmined the premises as well as the complaint, and find that the grade for said walk was fixed by the city civil engineer in 1883, and the walk laid to that grade, and now to raise the grade would be an injury to the property along the same rather than a benefit to anyone. Therefore I would simply recommend that the grade remain as it is.

Resolved, That the city civil engineer be and he is hereby instructed to prepare a first estimate in favor of John Bertels for grading and paving with brick the sidewalks on the north side of Washington street, from Walton avenue to the east line of lot No. 121, White's first addition.

Collector of the Port of New York.

Daniel Magone, the new collector of the port of New York, was born in Ogdensburg and is about 55 years old, his parents being natives of Ireland. He adopted the law as his profession. Mr. Magone's success in his profession has been signal, his income being fully $25,000 a year, which is very large for a country attorney. He is a self-made man. It is related that he once worked as a stable boy for F. T. Haskell, of Chicago, whose grand-

DANIEL MAGONE.

son a few years ago married Mr. Magone's daughter. He now lives in a handsome residence in Ogdensburg on the fruits of his professional labors.

He is also one of the ablest of politicians, but being in a Republican district was never elected to the state legislature or congress. He has great influence in state politics though. Repeatedly he has been a delegate to the Democratic state and national conventions, and for several years served on the Democratic state committee. In 1875 and again in 1876 he was chairman of that committee. In 1875, when Governor Tilden began his vigorous attack on the corrupt canal ring he made Mr. Magone a member of the now famous canal commission. This is the only public office of importance that he has held. Mr. Magone was one of the pallbearers at Tilden's funeral, and there met the president and Secretary Manning. With the latter Mr. Magone has also acted in many state conventions. Mr. Magone was also a warm supporter of Cleveland, both for governor and president, and is said to enjoy his personal friendship and confidence. He is a firm believer in civil service reform and will earnestly support the president's efforts to carry it into the administration of the New York custom house.

PENNSYLVANIA DEMOCRATS

Nominate Chauncey Forward Black for Governor.

Chauncey F. Black, the Democratic candidate for governor of Pennsylvania, is the son of the late Jeremiah S. Black, the noted judge. Mr. Black was born in Pennsylvania forty-two years ago. He was a student for a time with Garfield at Hiram college, Ohio. He afterward read law in his father's office, and was admitted to the bar in 1861. Mr. Black, however, has not confined his talents to the law, but has written much upon political subjects. He was a candidate for the Democratic nomination for congress in York in 1874, but was defeated by Levi Marsh, who nominated him in the recent convention to be governor. He attended the Democratic national convention as a delegate in 1880, and two years later he was chosen lieutenant governor of Pennsylvania by a plurality of 39,028 votes over William T. Davies. Mr. Black is one of the younger and bolder and more progressive leaders of the Democracy of his native state, and has the proud distinction of being recognized by men on both sides as a thoroughly clean politician.

CHAUNCEY F. BLACK.

HONORED AT LAST.

A Monument to De Kalb—Ordered by Congress 106 Years Ago.

The statue unveiled at Annapolis recently is a tardy fulfillment of an order of the congress of the confederation of 106 years ago, which directed that a monument should be erected to him bearing this epitaph:

"Sacred to the memory of the Baron De Kalb, Knight of the Royal Order of Military Merit, Brigadier of the Armies of France, and Major General in the service of the United States of America. Having served with honor and reputation for three years, he gave a last and glorious proof of his attachment to the liberties of mankind and the cause of America in the action near Camden, South Carolina, on the the 16th of August, 1780, where, leading on the troops of the Maryland and Delaware lines against superior numbers, and animating them by his example to deeds of valor, he was pierced with many wounds; and on the 19th following expired in the 48th year of his age. The Congress of the United States of America, in gratitude to his zeal, service, and merit, have erected this monument."

The sculptor, Mr. Keyser, of Baltimore, has represented De Kalb waving a sword above his head, as if in the act of rallying the American troops against the enemy.

STATUE TO DE KALB.

Honestly Upholstered Parlor Suits!

Misanthropic people have been heard to say, "An honest man is the rarest work of God."

We have been sometimes led to say, "An honestly made Parlor Suit is the rarest work of the Upholsterer."

But for this the people are as much at fault as the dealer.

A well made Parlor Suit constructed to give absolute satisfaction, with plenty of springs carefully fastened, double stuffed, and with four coverings above the springs; will cost in labor alone $15 to $25 to upholster; some a good deal more than that.

If you are unwilling to pay for a suit thus made, but give your patronage to some house which does not upholster its own suits and so has to take up with the cheap made stuff thrown together by the boys in the wholesale upholstering houses of Chicago and Cincinnati, you can not reasonably find fault with the quality of goods you buy.

Years ago we discovered that to be able to offer to our customers the right kind of Parlor Goods it was necessary we should manufacture them ourselves.

Our extensive upholstery department, with Mr. Fred Reineke at its head, is second to none in the state, and the artistic finish of the goods we produce is fully equalled by their intrinsic value.

Plush Parlor Suits from $40 up.

Is There a Cure for Consumption?

We answer unreservedly, yes! If the patient commences in time the use of Dr. Pierce's "Golden Medical Discovery," and exercises proper care. If allowed to run its course too long all medicine is powerless to stay it. Dr. Pierce never deceives a patient by holding out a false hope for the sake of pecuniary gain. The "Golden Medical Discovery" has cured thousands of patients when nothing else seemed to avail. Your druggist has it. Send two stamps for Dr. Pierce's complete treatise on consumption with numerous testimonials. Address World's Dispensary Medical Association, Buffalo, N. Y.

A CARD.

Editor SENTINEL.

For reasons purely personal I will not be a candidate before the democratic county convention. Therefore please take my announcement from THE SENTINEL. I thank my numerous friends for their kind assistance in the past and it is to relieve them of further burden that I make this statement. The democratic party has treated me very kindly and I cannot help pledging myself to heartily support all the nominees of its several conventions. The democratic campaign committee may call on me to do any work they may think advisable, that does not conflict with my official duties.

PUBLIC PRINTER.

Thomas F. Benedict, of New York, Receives the Appointment.

NEW YORK, Aug 27.—A Middletown, N. Y., special says: "The Ellenville *Press* announces that its former editor, Deputy State Comptroller Thomas F. Benedict, has been tendered by President Cleveland and accepted the position of public printer at Washington, and will assume the duties of the office at once. The present proprietor of the *Press*, Gilbert H. Benedict, will officiate as chief clerk under his brother.

STRIKE NEWS.

How the Labor Revolts Stand To-day.

PITTSBURG, Aug. 27.—Shoenberger's nail works, which has been closed for several weeks, will resume work on Monday, the employes having decided to follow the example of the Wheeling and Mingo men, and go to work at the seven cent scale. It is quite probable that other Pittsburg factories will follow suit.

There are no prospects of a resumption of work in the window glass factories of the west before October, and perhaps not then. The workmen insist upon the 8 per cent. advance in wages demanded for the gatherers and the manufacturers positively assert they will not concede the increase.

NEW YORK, Aug. 27.—The street railway troubles are not yet settled by any means, as the situation at the Belt line depot on Tenth avenue and Fifty third street shows. Crowds of angry men line Tenth avenue for three or four blocks.

LAFAYETTE, Ind., Aug. 27.—Yesterday John F. McHugh, attorney for the striking carpenters at the car works, demanded from the company the full amount of wages due the men. It has been the custom of the company to withhold two weeks' pay from the men in their employ. The company at first refused to comply, but finally, to escape lawsuits, agreed, and the men marched to the works in a body and were paid off. This afternoon the men removed all their tools from the shops. One man returned to work to-day, but the others are firm in their demand for $11.50 per car.

Business Failures.

NEW YORK, Aug. 27.—The business failures for the past seven days in the United States are 171, and in Canada 30.

BOSTON, Mass., Aug. 27.—T. F. Brown & Co., furniture manufacturers, have gone into insolvency. Liabilities $75,000; assets about $80,000.

BUFFALO, N. Y., Aug. 27.—The general assignment of Mortimer M. Mahle boot and shoe dealer, was filed to-day. Preferences aggregate $23,000.

Senator Evarts Better.

WINDSOR, Vt., Aug 27.—The condition of Senator Evarts is improving. He rested well the greater part of the night and is able to take light food. He thinks a few days rest will entirely restore him to health. Miss Matthews is gaining and her bruises are less painful.

Gay's Shortage $11,337.

PITTSBURG, Pa., Aug. 27.—An investigation of ex-Chief Pension Clerk Gay's accounts shows a shortage amounting to exactly $11,337. The examiners found that the peculations began five years ago. At first Gay took small sums, ranging from $20 a day and upwards. Last year the embezzlements amounted to as much as $700 a day. There will be five or six charges of forgery brought against Gay.

A Bishop Elected.

SALISBURY, Md., Aug. 27.—Rev. Alexander Drieudale, of New Orleans, was yesterday elected bishop of the episcopal diocese of Easton. This makes the fourth election some heretofore having declined.

THE MATTOON LOTTERY.

Grand Chief Arthur Explains the Relations of the Brotherhood to the Scheme.

PERU, Ind., Aug. 27.—P. M. Arthur, chief of the Brotherhood of Locomotive Engineers, was in the city to-day, to adjust, if possible, the differences between the Indianapolis, Peru and Chicago engineers and the company.

Until he was told by your correspondent, Mr. Arthur had not heard of the arrest of M. C. Nixon and Wilber Mitten for violation of the law in the Brotherhood of Locomotive Engineers' lottery enterprise. Concerning that enterprise he said:

"I was invited to Mattoon, Ill., last winter by division 37.—I heard about this lottery then for the first time, at a dinner party given me. I was driven out to the farm offered as one of the prizes, by Mr. Nixon. I was shown the indorsements of prominent business men and bankers of Mattoon. If there was anything in it contrary to law, I did not then and do not now understand why it should be indorsed by them. Churches and business men have these gift concerts, and the money of this one was to go to the orphans and widows of the engineers. I saw nothing wrong in it. I think the brotherhood were to have 20 per cent of the proceeds. After the sale of the tickets were made there were a number of tickets left, and the managers proposed to give them to the grand officers. I told them we would have nothing to do with them. After the drawing was made I was notified at Cleveland, to send some one to Indianapolis to receive the deed on the farm that was drawn by one of the tickets held for the benefit of the grand officers. I wrote them that we would have nothing to do with it, and that they might make a report of the thing to the convention, and the convention might do as it pleased. As far as the grand officers are concerned, that is how the matter rests. We value our good name, and if there has been anything wrong in the conduct of this affair I do not know it, and the responsibility rests with the Mattoon division, and not with the grand officers or the brotherhood at large. I propose that this whole business shall be full explained to the public—how the drawing was made and who got the prizes. We don't lack for money, and we would rather that the entire sum be given some charitable institution in Mattoon, or distributed to the discontented, than take it with a particle of wrong in it."

LOCAL LINES.

The Salvation army has leased the Academy of Music for a year and will conduct their meetings there.

Mrs. A. Mergentheim and son Martty left last night for a two weeks visit with relatives at Chicago and St. Louis.

Prof. John Mayle has resigned from the head of St. Mary's parochial school and will engage in the manufacture of steam engines and threshers at Laporte. He will be succeeded by a young man from Evansville.

John E. Erwin sues Anna Wageman and John McMahon, for injunction and $20 damages. Judge O'Rourke will issue a restraining order enjoining the defendants from removing "real estate with teams and wagons," until a former judgment is satisfied.

Adams Express company to-day handled a valuable consignment of pictures for Cincinnati. The collection was from Rt. Rev. Bishop Dwenger's studio and included his famous Titian painting. The works of art are to be exhibited at the Cincinnati exposition and E. L. Mahner came here especially to secure them.

Nicholas Morris, who assaulted Chas. Stoppenhagen, was fined $5 and costs by the mayor this morning. His bill was $22.55, and he gave bond for its payment. Morris filed an affidavit against Stoppenhagen for trespass in breaking in his door. This case will come up next Monday. Stoppenhagen says he will sue Morris for damages. It is a badly mixed up muss. Mr. Clary Edsall was counsel for Morris and got him off lightly.

The Number of Jews.

According to the last Israelitish Annual, the number of Jews in the world at present is but 9,300,000, of whom 5,400,000 are in Europe. There are 230,000 Jews in the United States, 2,452,000 in Russia, 1,644,000 in Austrian Hungary, 608,000 in Gallicia, 638,000 in Hungary, 562,000 in Germany, and in France, notwithstanding all the fuss that M. Drumont makes about them in his "Jew France," only 63,000.

CONVERSATION AT THE SEASIDE.

Some of the Subjects Discussed on a Hotel Verandah.

[Special Correspondence.]

ASBURY PARK, Aug. 23.—Conversation at a seaside hotel is never either stimulating or beneficial. Early evening is the hour when there is a freer commingling of the different elements of society. The veranda is the theatre of this form of sociability. Twilight gives an excuse for informal exchange. The highly exclusive and densely stupid dowager then permits herself to say "yes," "no," "indeed," "I am surprised," and other equally brilliant remarks to the tedious old man who talks about himself all the time. She has had a good deal of her own society through the day, and is somewhat tired of it, to tell the truth. Anything is a relief—even such nothings as the vacant-headed old man utters.

A woman with two pretty daughters talks mostly about "keeping the house lively." She watches hungrily for new guests, and secretly hopes that every fresh arrival will prove to be somebody of consequence. She has an eye to making acquaintances of distinction.

The bullet headed man treats us to long and graphic yarns about fish. He has fished everywhere, if he is to be believed, from Behring's strait to the southern seas, and always with the most astonishing success. The wrigglings of his victims are described over and over again, evening after evening, until we would all fain cry in our best stage tones: "No more! no more! Spare me, good sir, this doleful iteration."

The bald headed man with speculative instincts thinks speculation, but doesn't talk it. No, he talks on conventional subjects. "Who is the greatest preacher in New York?" and "which is the most popular church?" are his standard themes. He quotes bits of the sermons of his favorite preachers, and rather wants to have it understood that he knows the correct thing in theology.

The woman from Boston talks mind cure, which is all Sanscrit to most of her hearers. I heard her this morning try to put an inkling of her theories into a mind that had never heard of any of them, nor, indeed, of much else beyond being quite prim, proper, prunes and prisms-like. It was breaking rough ground surely.

The missionary soon saw that it was a hopeless case, but she persevered. She gave some good, wholesome rules for diet and then touched a little on metaphysics. The other woman looked at her with glassy eyes, as ignorant of what she was talking about as a cricket. Then there occurred to me a puzzle for the phrenopaths to solve. How can one go to work to cure the ills of a person without a mind?

The pretty little woman, who has two small children, regales all who will listen to her with stories of the brilliancy of these nurselings. This brings out no end of newspaper anecdotes about clever babies, their wise and witty sayings, and their remarkable performances.

The wife of the bagman always talks about the stage. She is looking forward to the matinee performances of the coming winter with great delight. She boards when in New York, and is troubled about how to put in her time till the theatrical season opens.

The very elderly lady in silks and laces, queerly enough, talks more gossip than anybody. She doesn't limit herself to purely innocent gossip, either. And when it comes to criticism she knows how to lay it on then—three-ply and particularly highly polished. Seeing and hearing her I am led to reflect that a carping, critical mind in a body near the grave is a very disagreeable spectacle.

One very old man talks horse all the time, which is a great improvement on the unflattering personalities indulged in by the very old lady.

The stage struck girl talks always about the heroes and heroines of the stage.

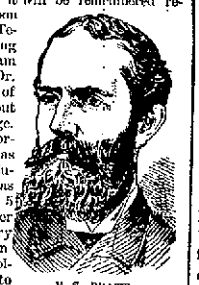
The fair one, who paints plaques and other horrors, talks about "subjects." She spends some time in hunting for "subjects" on this sparsely covered bit of earth. She takes to flowers instead of mortals, as subjects, which is doubtless well for the mortals.

The woman who talks about her relations is here, of course. She never tells a story without fastening it on an aunt or cousin, or some of her kin dead or alive. She has never been told that stories about relations are great bores. Probably nobody will ever have the courage to tell her.

MAX ELTEN.

The New Minister to Persia.

Dr. Edwin Spencer Pratt was recently appointed to succeed Mr. Frederick H. Winston, of Chicago, who it will be remembered resigned the post soon after reaching Teheran and making the grand salaam to the shah. Dr. Pratt is a native of Alabama and but 35 years of age. The greatest portion of his life has been spent in Europe, where he was taken when but 5 years of old. After receiving a literary and scientific training in French colleges he returned to the United States in 1874 and studied medicine in New York city. He continued his studies in the Charity hospital, New Orleans, and in English hospitals. After two years more of scientific study in Paris he returned to this country in 1880 and engaged with his father in commercial pursuits until the death of the latter through a railroad accident on a railroad of which he was vice-president.



E. S. PRATT.

MISS DOLORES ILLEONARY CASSANOVAS has just received the degree of M. D., at Barcelona. She began, says the *Pall Mall Gazette*, her university studies at the age of 8, when at 13 she became a B. A., and now, at the ripe age 19, after coming out first in all her examinations, and taking numerous prizes, she is a fully qualified physician and surgeon. Fancy a female B. A. of 13 discoursing on hideous diseases with six-syllabled names, and correctly diagnosing and prescribing for her brothers and sisters! But it is what we have got to expect, and the fair Spaniard is to be congratulated on being the first of her sex to show what can be done in the way of rapid development. Miss Dolores, etc., may be fairly addressed, like her namesake sung of by Swinburne, as 'wise among women and wisest, our Lady of Pain.'

SHOCKING ACCIDENT.

Lady Superioress Eulalie Burns to Death in Her Bed.

CINCINNATI, Aug. 27.—Sister Eulalie, the superioress of Immonulate academy, Newport, Ky., met with a shocking death this morning. She was nearly convalescent from an attack of typhoid fever and about four o'clock, while trying to take some medicine, a mosquito-bar caught fire and in a moment the bed was a mass of flames. Sister Eulalie sprang out and tried to get into the hall, but found the door locked and in her fright, could not find the key. The occupants of the house came to her assistance, but had to break down the door to reach her. When the fire was extinguished the unfortunate woman was so badly burned that she died in a few hours. The deceased was forty years of age. She had spent considerable time in Louisville. Her parents, named Graynor, now live in New York City. She is widely known in the Catholic church.

A HUMAN FIEND.

He Murders His Wife in a Quarrel.

YPSILANTI, Mich., Aug. 27.—A murder was committed at Mettles Station, about seven miles south of this city, yesterday. A farmer named Wells, cut his wife's throat during a quarrel about property. When their two little children returned from school they found the dead body of their mother in the yard. They alarmed the neigborhood and a search was made for the murderer. He was found in a corn crib and gave himself up without resistance. He pretended insanity.

California Republicans.

LOS ANGELOS, Cal., Aug. 27.—In the republican state convention this morning, John F. Swift was nominated for governor on the eighth ballot. Swift was one of three special envoys sent to China to negotiate an amended treaty between the United States and China, and is one of the best newspaper writers on the Pacific coast.

SPRINGFIELD, Ill., Aug. 27. The democratic state convention of Illinois consumed but six minutes yesterday in nominating H. F. J. Ricker for state treasurer and Professor F. D. Oldt for superintendent of public instruction. Propositions to place F. H. Winston and J. E. Van Pelt on the state central committee was voted down. When the name of President Cleveland was mentioned there was a tumult of applause. The platform favors the reduction of the tarift to a revenue basis, approves of the forfeiture of railroad land grants; declares against convict labor, the holding of real estate by aliens, and the attempt to prohibit the manufacture or sale of liquors.

The prohibitionists of Pennsylvania nominated Charles F. Wolfe for governor, and A. A. Barker for lieutenant-governor. The sum of $7,000 was contributed for campaign purposes, and $200 flung into the hat for the widow of Rev. Mr. Haddock, of Iowa, supposed to have been murdered for his labors in the cause of temperance.

John Roach Dying.

NEW YORK, Aug. 27.—John Roach, the ship-builder, is lying dangerously ill at the Hotel Balmoral, Mt. McGregor. He has been confined to his bed for the past four or five days.

MT. MCGREGOR, Aug. 27.—The statement made by the New York morning papers that John Roach is seriously ill here, is emphatically denied by Mr. Roach.

The Detroit Pitcher Fined.

DETROIT, Aug. 27.—Pitcher Getzien, of the Detroit base ball club, has been fined $300 for insolence and profanity addressed to Capt. Hanlon, who had censured him for listless playing.

SHEPHERD AGAIN.

His Work at Fort Wayne is Criticised.

The Indianapolis *Journal* says: "From what Shepherd has said to me," another military man replied, to the question of the reporter, "I do not believe that Gov. Gray was conversant with the quartermaster-general's charge of twenty-five cents for cleaning each gun. I see the governor says that he had no knowledge of it, but Shepherd thinks otherwise. About lending guns to unorganized and independent companies, I believe there is a United States statute, requiring the guns furnished a state by the national government to be used only by the regular militia. Shepherd, I know, has sent letters broadcast throughout the state informing persons interested that he will furnish guns for soldiers' reunions and sham battles at twenty cents each in addition to freightage and cartage. He has complained about Adjutant-General Koontz organizing so many companies. He claimed that he could not get enough guns to arm them. Referring to ammunition at the recent reunion at Fort Wayne, there were among the troops twelve companies of regular Indiana militia. The committee up there bought all the cartridges used. Not a round was supplied by the state. Shepherd's price, $18 per thousand, may be reasonable, but his cartridges are of medium quality. You can get the best at $21 per thousand. The prices vary according to the kind of powder used."

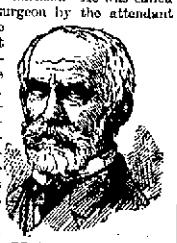
A GAY ONE.

A Wabash Conductor Runs Away With a Married Woman.

Mrs. George A. Wise, of Peru, took advantage of her husband's absence in Kansas and eloped with a Wabash freight conductor, named Stephon Maxey. Mr. Wise on his return followed the couple to Indianapolis and had the unfaithful woman arrested. She was sentenced to the work house for thirty days and her child was delivered to her husband. Her paramour was on the road and escaped capture. Conductor Maxey is quite well known here and was regarded as a favorite in "society." Mrs. Wise is of bad stock.

Dr. Frank H. Hamilton.

Among distinguished men recently passed away is Dr. Frank Hastings Hamilton, of New York city. He was born in Vermont in 1813. For more than a quarter of a century he has been one of the best known of American surgeons. To the country at large he became known during the long and trying sufferings of President Garfield. He was called in as consulting surgeon by the attendant physicians at the time the president was shot, and remained all the months till the end. Garfield's physicians did not impress their countrymen with their intimate acquaintance with their patient's case, but that fact only goes to show how little really is known by the medical profession after all, even the best of them.



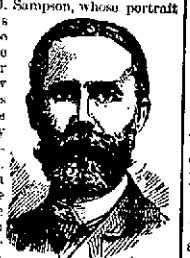
DR. FRANK HAMILTON.

Dr. Hamilton was a graduate of the University of Pennsylvania. He was professor of surgery in various schools throughout New York state up to 1861. Then he and others founded the medical college of Bellevue hospital, New York city, and Dr. Hamilton was its first professor of surgery.

He was the inventor of many valuable surgical instruments, and a brilliant and able lecturer, teacher and writer. His most important book was a "Treatise on Fracture and Dislocations." It ran through seven editions and has been translated into French and German. It is the recognized authority on the subject of which it treats. Dr. Hamilton was in failing health for three years.

Commander William J. Sampson.

The new superintendent of the United States naval academy at Annapolis, Md., is Commander William J. Sampson, whose portrait accompanies this article. It will be a satisfaction to the mothers of our country to know that their sons' lives are likely to be safe while the academy is in charge of Commander Sampson. It will require a Samson to crush the disgraceful practice of "hazing," which has prevailed there for years and which has resulted in the maiming of many boys for life.



COM. W. J. SAMPSON.

The new superintendent is a strict disciplinarian. He was a New York boy and is now 46 years old. He entered the Naval academy in 1857 and graduated at the head of his class in 1861. He served during the war in the Potomac flotilla, the gulf squadron and in the monitor fleet at Charleston, S. C., being one of the few on board the monitor Patapsco who escaped when it was destroyed by a Confederate torpedo.

THE fish story has got into the advertising columns. A New York paper contains an advertisement of a St. Lawrence Hotel. The advertisement consists of pictures of seven fish, the smallest four pounds and the largest five and a quarter pounds, all caught in one afternoon by a guest at the hotel.

LONDON, Aug. 27.—The Bulgarians are practically unanimous in their demand for Prince Alexander's return to Rustchuk. As a result of the understanding reached by the adherents to Prince Alexander at Sofia and Tunovia, a council of regency has been formed, and Elmont Komroff has been appointed commander-in-chief as long as a state of siege lasts.

BERLIN, Aug. 27.—M. DeGiers, Russian minister of foreign affairs, yesterday issued a circular from Franzensbad, Bohemia, where he is staying, explaining Russia's connection with the Bulgarian coup d'etat. M. De Giers declares that Russia can never approve of the circumstances attending Prince Alexander's abdication. "The Bulgarians who favored the deposition of Prince Alexander," DeGiers continues, "undoubtedly followed their natural feelings thereby removing obstructions which disturbed the close union of Bulgarians and their kindred, the Russian people."

LONDON, Aug. 27.—The British house of commons, by a vote of 241 to 146 rejected a motion by Edward C. Russell to adjourn the house. All the Gladstonean and Parnellite members arose in support of the motion.

A QUESTION ABOUT

Brown's Iron Bitters

ANSWERED.

The question has probably been asked thousands of times, "How can Brown's Iron Bitters cure everything?" Well, it doesn't. But a dyspepsia or any disease for which a reputable physician would prescribe IRON Physicians recognize iron as the best restorative agent known to the profession, and inquiry of any leading chemical firm will substantiate the assertion that there are more preparations of iron than of any other substance used in medicine. This shows conclusively that iron is acknowledged to be the most important factor in successful medical practice. It is, however, a remarkable fact, that prior to the discovery of BROWN'S IRON BITTERS no perfectly satisfactory iron combination had ever been found.

BROWN'S IRON BITTERS does not injure the teeth, cause headache, or produces constipation—all other iron medicines do. BROWN'S IRON BITTERS cures Indigestion, Biliousness, Weakness, Dyspepsia, Malaria, Chills and Fevers, Tired Feeling, General Debility, Pain in the Side, Back or Limbs, Headache and Neuralgia—for all these ailments iron is prescribed daily.

BROWN'S IRON BITTERS however, does it effectually, and cures in a minute. Like all other thorough medicines, it acts slowly. When taken by men the first symptom of benefit is renewed energy. The muscles then become firmer, the digestion improves, the bowels are active. In general debility it usually more rapid and marked. The eyes begin at once to brighten; the skin clears up; healthy color comes to the cheeks; nervousness disappears; functional derangements become regular, and if a nursing mother, abundant sustenance is supplied for the child. Remember Brown's Iron Bitters is the ONLY iron medicine that is not injurious. *Physicians and Druggists recommend it.*

The Genuine has Trade Mark and crossed red lines on wrapper. TAKE NO OTHER.

REPORT OF THE CITY CIVIL ENGINEER.

In the matter of the petition of Mrs. Francis Steinecker to have the sidewalk raised on Locust street along her property, on the southwest corner of Locust street and Fairfield avenue, referred to me, will report that I have examined the premises as well as the complaint, and find that the grade for said walk was fixed by the city civil engineer in 1883, and the walk laid to that grade, and now to raise the grade would be an injury to the property along the same rather than a benefit to anyone. Therefore I would simply recommend that the grade remain as it is.

J. S. HOSHOUR, Civil Engineer.

Collector of the Port of New York.

Daniel Magone, the new collector of the port of New York, was born in Ogdensburg and is about 55 years old, his parents being natives of Ireland. He adopted the law as his profession. Mr. Magone's success in his profession has been signal, his income being fully $25,000 a year, which is very large for a country attorney. He is a self-made man. It is related that he once worked as a stable boy for P. T. Haskell, of Chicago, whose grand-

son a few years ago married Mr. Magone's daughter. He now lives in a handsome residence in Ogdensburg on the fruits of his professional labors.

He is also one of the ablest of politicians, but being in a Republican district was never elected to the state legislature or congress. He has great influence in state politics though. Repeatedly he has been a delegate to the Democratic state and national conventions, and for several years served on the Democratic state committee. In 1875 and again in 1876 he was chairman of that committee. In 1875, when Governor Tilden began his vigorous attack on the corrupt canal ring he made Mr. Magone a member of the now famous canal commission. This is the only public office of importance that he has held. Mr. Magone was one of the pall-bearers at Tilden's funeral, and there met the president and Secretary Manning. With the latter Mr. Magone has also acted in many state conventions. Mr. Magone was also a warm supporter of Cleveland, both for governor and president, and is said to enjoy his personal friendship and confidence. He is a firm believer in civil service reform and will earnestly support the president's efforts to carry it into the administration of the New York custom house.

PENNSYLVANIA DEMOCRATS

Nominate Chauncey Forward Black for Governor.

Chauncey F. Black, the Democratic candidate for governor of Pennsylvania, is the son of the late Jeremiah S. Black, the noted judge. Mr. Black was born in Pennsylvania forty-two years ago. He was a student for a time with Garfield at Hiram college, Ohio. He afterward read law in his father's office, and was admitted to the bar in 1861. Mr. Black, however, has not confined his talents to the law, but has written much upon political subjects. He was a candidate for the Democratic nomination for congress in York in 1874, but was defeated by Levi Marsh, who nominated him in the recent convention to be governor. He attended the Democratic national convention as a delegate in 1880, and two years later he was chosen lieutenant governor of Pennsylvania by a plurality of 89,028 votes over William T. Davies. Mr. Black is one of the younger and bolder and more progressive leaders of the Democracy of his native state, and has the proud distinction of being recognized by men on both sides as a thoroughly clean politician.

CHAUNCEY F. BLACK.

HONORED AT LAST.

A Monument to De Kalb—Ordered by Congress 106 Years Ago.

The statue unveiled at Annapolis recently is a tardy fulfillment of an order of the congress of the confederation of 106 years ago, which directed that a monument should be erected to him bearing this epitaph:

"Sacred to the memory of the Baron De Kalb, Knight of the Royal Order of Military Merit, Brigadier of the Armies of France, and Major General in the service of the United States of America. Having served with honor and reputation for three years, he gave a last and glorious proof of his attachment to the liberties of mankind and the cause of America in the action near Camden, South Carolina, on the 19th of August, 1780, where, leading on the troops of the Maryland and Delaware lines against superior numbers, and animating them by his example to deeds of valor, he was pierced with many wounds; and on the 19th following expired in the 48th year of his age. The Congress of the United States of America, in gratitude to his zeal, service, and merit, have erected this monument."

STATUE TO DE KALB.

The sculptor, Mr. Keyser, of Baltimore, has represented De Kalb waving a sword above his head, as if in the act of rallying the American troops against the enemy.

Honestly

Upholstered

Parlor Suits!

Misanthropic people have been heard to say, "An honest man is the rarest work of God."

We have been sometimes led to say, "An honestly made Parlor Suit is the rarest work of the Upholsterer."

But for this the people are as much at fault as the dealer.

A well made Parlor Suit constructed to give absolute satisfaction, with plenty of springs carefully fastened, double stuffed, and with four coverings above the springs; will cost in labor alone $15 to $25 to upholster; some a good deal more than that.

If you are unwilling to pay for a suit thus made, but give your patronage to some house which does not upholster its own suits and so has to take up with the cheap made stuff thrown together by the boys in the wholesale upholstering houses of Chicago and Cincinnati, you can not reasonably find fault with the quality of goods you buy.

Years ago we discovered that to be able to offer to our customers the right kind of Parlor Goods it was necessary we should manufacture them ourselves.

Our extensive upholstery department, with Mr. Fred Reineke at its head, is second to none in the state, and the artistic finish of the goods we produce is fully equalled by their intrinsic value.

Plush Parlor Suits from $40 up.

Is There a Cure for Consumption?

We answer unreservedly, yes! If the patient commences in time the use of Dr. Pierce's "Golden Medical Discovery," and exercises proper care. If allowed to run its course too long all medicine is powerless to stay it. Dr. Pierce never deceives a patient by holding out a false hope for the sake of pecuniary gain. The "Golden Medical Discovery" has cured thousands of patients when nothing else seemed to avail. Your druggist has it. A CARD.

Editor SENTINEL.

For reasons purely personal I will not be a candidate before the democratic county convention. Therefore please take my announcement from THE SENTINEL. I thank my numerous friends for their kind assistance in the past and it is to relieve them of further burden that I make this statement. The democratic party has treated me very kindly and I cannot help pledging myself to heartily support all the nominees of its several conventions. The democratic campaign committee may call on me to do any work they may think advisable, that does not conflict with my official duties.
